WORK OF WOMEN IN CROW WING COUNTY

County Chairman Mrs. L. P. Hall of Bay Lake on Food Conservation, Liberty Bonds, Etc.

Women Bought \$34,900 Bonds and Women's Organizations of the County Took Bonds Valued at \$3,550

Council of National Defense, Minnesota Commission of Public Safety, Women's Auxiliary Committee, Crow Wing County.

Deerwood, Minn., Nov. 20, 1917. Mrs. W. H. Gemmell, 6th Dist. Chairman of Women's Auxiliary, Public Safety Commission and Council National Defense, Brainerd, Minn.

My dear Mrs. Gemmell: The good reports from the town and township chairman have been so encouraging and helpful again this month. Mr report includes a summary of these also summary of reports given by Mrs. W. C. Cobb, our Liberty Loan Chairman and an account of work done in our county by the War Emergency, Home Demonstration Agent, Miss Alice Poulter.

BARROWS TOWN
Very few felt able to purchase Liberty Bonds. Every woman in town signed Hoover Pledge Cards before November 1st. All are trying to save. Substitutes used are corn meal oat meal and rye, fish, poultry and eggs. Nine tenths of the women are interested and working for the Red Cross. There have been no patriotic meetings or talks. Chairman gave talk on conservation at the school.

BAY LAKE TOWNSHIP.
Several of the women bought Liberty Bonds and the North Bay Lake Ladies Aid purchased \$100.00 bond. As the men of the township quite generally purchased bonds the women feel included. Have a Red Cross Auxiliary of 44 members. Hold weekly meetings and are doing effective work. Patriotic songs were sung, patriotic talks were given and a conservation dinner served at the Farmers Club November 17. Loyalty and patriotism are increasing.

BRAINERD TOWN
Secured 453 signatures to Hoover pledges. Conservation is being understood better every day. Women bought \$22,900.00 of bonds, women's organizations 3400.00. 36 out of 56 teachers took bonds and about \$2500.00 was taken by high school pupils.

CROSBY TOWN
Mrs. W. C. Cobb of Brainerd spoke on 2nd Liberty Loan. The women themselves spoke at the "Movies" and sang patriotic songs. Mothers Club bought a bond and voted to support the Hoover Pledge as a Club. During the November campaign 83 women signed and as there were 221 signatures previously this makes at least 95 per cent who have signed. Many are trying to live up to all conservation measures. Corn meal, rye and graham are used and many are using potato bread exclusively. Nut roast, salmon loaf, codfish cheese dishes, tuna fish and peas, peanut and rice loaf, beans and lentils are finding favor. Corn syrup, maple syrup and honey are used and in all cases less sugar is used in tea and coffee. The Spalding Hotel has its meatless day and will observe wheatless days soon. Red Cross has 750 members in Crosby. This is a good majority of the population. Local branch is very active, about 60 active workers and they seem to prefer sewing.
Fine patriotic meetings held at high school recently. At the Mothers

Club all sang patriotic songs and Mr. Hayes spoke on Y. M. C. A.

DEERWOOD TOWN.
There were 15 new signers to Hoover Pledge, 72 signed previously. 90 per cent have signed. Ninety percent of the families are trying to live up to Hoover Pledge. Rye, corn meal, bran are substituted for wheat, Poultry, fish, eggs, cheese, beans, macaroni for meat. Maple sugar, syrup, honey, are sugar substitutes. Many have dispensed with sugar in tea and coffee. Substitutes are being used for butter. Civic League gave a luncheon recently and none noticed the absence of sweets. A demonstration of conservation foods was given November 19. Home products rye flour bread and butter substitutes with Liberty cake and coffee was served. Attendance and interest shown very good. More than fifty per cent are interested in the Red Cross work. Twenty women in Deerwood brought Liberty Bonds and three women's organizations purchased also. The total amount purchased by the women being \$2,100. Loyalty and Y. M. C. A. meetings held recently.

LAKE EDWARD TOWNSHIP.
Town board and clerk of town made a thorough canvass of township in interest of second Liberty Loan Bond sale. Eight \$50.00 bonds sold. Nearly all had signed the Hoover Pledge before November, 44 signers in all making almost 100 per cent. All are doing their share in the conservation work. Corn meal, shorts, red dog flour, fish, poultry and beans are some of the substitutes. Many use syrup instead of sugar. About one eighth of the women are knitting for Red Cross. There have been no patriotic meetings or talks.

IRONTON TOWN.
Signers to Hoover Pledge in November were 118. Have had many new families since July when 121 signed. Nearly all have signed, about 90 per cent.

KLONDYKE TOWNSHIP.
One woman in township has three bonds and a few have one of their own or a "family bond." During November twenty women signed Hoover Pledges. All are trying to save along Hoover lines inasmuch as they understand it and can do so. Some of the substitutes are corn meal, rye, oatmeal, barley, duck, deer, fish, beans and cheese. Many of the women live too far apart to attend Red Cross meetings but one woman has made six sweaters, six helmets, four mufflers, four pairs socks since knitting was started. Some of the township women attended the patriotic meeting in Crosby.

NOKAY LAKE TOWNSHIP.
Very few bonds sold, no special effort was made to interest the women in the purchase of bonds. About two thirds of the women have signed the Hoover Pledge cards. Those who have signed are living up to instructions as far as possible. Rye, corn meal, oat meal, chickens and wild game are used as substitutes and for sugar are just using less sugar and more molasses to cook with. Six or seven have done a little knitting for Red Cross. There have been no patriotic meetings or talks.

MISSION TOWNSHIP.
The town board made a thorough canvass of township in interest of Liberty Bond sale, six bonds were

SEN. MORRIS SHEPPARD
See it his first duty to repress traitors to the United States.

"If it is proven to be true that La Follette has said or done one-tenth of the things he is reported to have said or done, I shall vote that the places which knew him once shall know him no more," said United States Senator Morris Sheppard. "It is our duty as loyal Americans to repress traitors and treason wherever they lift their heads."

Most Sympathetic Policy Toward Russia Urged by Americans

By Lowell Millette, U. P. Staff Cor. (Copyright 1917, by United Press)

Paris, Nov. 30—America is insisting that the allies adopt the most sympathetic policy toward Russia as a result of the revolution and that she must be saved as a champion of world democracy.

America is disinclined to look upon Russia solely from the viewpoint of the possible use of her rehabilitated armies and her assistance to the allies. While Russia's return to the fighting is a matter of extreme necessity, but the United States would not see her shackled again in the bonds of despotism to gain this end, and the United States is not going to stand by and see democratic advantages in Russia lost through lack of sympathy from other nations allied in fighting for democracy, and this is the view being expressed by the United States at the inter-allied conference.

Colonel House is maintaining allied sympathy towards the revolution and says that all talk of traitors in connection with Russia must cease.

In Complete Accord

Paris Nov. 30—The newspapers say that complete accord has developed in the inter-allied conference on the Russian situation.

Charles A. Pitkin of Thief River Falls will be the Elks memorial day speaker at the Brainerd opera house, Dec. 2, when the annual services of Brainerd Lodge No. 615, B. P. O. E. will be held at 3 o'clock in the afternoon.

There is more Catarrh in this section of the country than all other diseases put together, and for years it was supposed to be incurable. Doctors prescribed local remedies, and by constantly failing to cure with local treatment, pronounced it incurable. Catarrh is a local disease, greatly influenced by constitutional conditions and therefore requires constitutional treatment. Hall's Catarrh Medicine, manufactured by F. J. Cheney & Co., Toledo, Ohio, is a constitutional remedy, is taken internally and acts thru the blood on the mucous surfaces of the system. One Hundred dollars reward is offered for any case that Hall's Catarrh Medicine fails to cure. Send for circulars and testimonials.

LADIES! DARKEN YOUR GRAY HAIR

Use Grandma's Sage Tea and Sulphur Recipe and Nobody will know.

The use of Sage and Sulphur for restoring faded, gray hair to its natural color dates back to grandmother's time. She used it to keep her hair beautifully dark, glossy and attractive. Whenever her hair took on that dull, faded or streaked appearance, this simple mixture was applied with wonderful effect.

But brewing at home is messy and out-of-date. Nowadays, by asking at any drug store for a bottle of "Wyeth's Sage and Sulphur Compound," you will get this famous old preparation, improved by the addition of other ingredients, which can be depended upon to restore natural color and beauty to the hair.

A well-known downtown druggist says it darkens the hair so naturally and evenly that nobody can tell it has been applied. You simply dampen a sponge or soft brush with it and draw this through your hair, taking one strand at a time. By morning the gray hair disappears, and after another application or two, it becomes beautifully dark and glossy.

Wyeth's Sage and Sulphur Compound is a delightful toilet requisite for those who desire a more youthful appearance. It is not intended for the cure, mitigation or prevention of disease.

KEEP LOOKING YOUNG

It's Easy—If You Know Dr. Edwards' Olive Tablets

The secret of keeping young is to feel young—to do this you must watch your liver and bowels—there's no need of having a sallow complexion—dark rings under your eyes—pimples—a bilious look in your face—dull eyes with no sparkle. Your doctor will tell you ninety per cent of all sickness comes from inactive bowels and liver.

Dr. Edwards, a well-known physician in Ohio, perfected a vegetable compound mixed with olive oil to act on the liver and bowels, which he gave to his patients for years.

Dr. Edwards' Olive Tablets, the substitute for calomel, are gentle in their action yet always effective. They bring about that exuberance of spirit, that natural buoyancy which should be enjoyed by everyone, by toning up the liver and clearing the system of impurities.

You will know Dr. Edwards' Olive Tablets by their olive color. 10c and 25c per box. All druggists.

Johnson-Nygren

Miss Lillian Johnson, daughter of Mr. and Mrs. Joseph Johnson, was married Wednesday morning at 9:30 o'clock at the home of her parents to David Nygren, Rev. J. Alfred Peterson, pastor of the Swedish Baptist church officiating.

The farm home five miles from Brainerd was appropriately decorated for the occasion. The bride wore a light gray travelling suit and carried a bouquet of roses. The bridesmaid was Miss Eva Johnson, a sister of the bride, and she wore a blue suit and carried carnations. The best man was Rudolph Nygren, a brother of the bridegroom.

Mrs. Joseph Nygren played the wedding march. After the ceremony a wedding breakfast was served. Among the guests were the bridegroom's parents, Mr. and Mrs. C. J. Nygren, and also Mr. and Mrs. Joseph Nygren of Staples.

The happy couple went to Harvey, N. D., on their honeymoon trip and on their return will make their home in Brainerd.

AUXILIARY AT SOUTH LONG LAKE

Mrs. John McKay and Mrs. W. C. Cobb of the extension committee and Mrs. J. P. Anderson, chairman of the knitting committee, with Mrs. Carl Bentley, who formerly lived at South Long Lake, organized a Red Cross auxiliary at that place last Tuesday afternoon.

Although the attendance was small due to pressing farm work and various other reasons, a good deal of enthusiasm was manifested after they were finally persuaded to take up this important work. Mrs. Flora Wheeler, who knitted for the soldiers in the Civil War, added considerably to this enthusiasm, after her arrival at the meeting. A committee was sent to her home to bring this interesting, young-looking grandmother to the meeting in an automobile.

The following officers were elected: Mrs. S. F. Brown, chairman; Mrs. C. E. Sutton, vice-chairman; Miss Alma Caughey, secretary, and Mrs. Henry Stedfeld, treasurer.

MEASURING PARTY

Given by Y. P. C. E. Thanksgiving Evening in First Congregational Church

The measuring party which was given by the Y. P. C. E. Thanksgiving evening in the First Congregational church parlors, was very well attended, and all reported an enjoyable time. Luncheon was served to twenty-eight, preceeding the following program which was given:

Old Maid's Convention

Youth and beauty, the two particular virtues of which most people are envious is to become an interesting feature of an entertainment to be given in the concert hall of the First Methodist church, Friday evening, Dec. 7th, under the auspices of the Philathea Bible class.

Professor Makeover will be there with his wonderful invention that presumes to have the wonderful ability to transform age and wrinkles into youth and beauty. He hears that a convention of spinsters is in session in the town. He at once goes to the convention and explains the merits of his novel invention, the secrets of which are carefully protected by patents pending.

He tells them that all that is necessary is for them to tell their age, young lady they wish acvfw a'in young lady they would like to become, swallow a powder, enter his machine and in less than ten seconds the transformation takes place. One after another they become rejuvenated to the delight of the audience.

On this particular evening, Dec. 7th, Prof. Makeover desires to show samples of what his wonderful machine can do but no doubt he will be pleased to make engagements for a later date with any others who desire to test the authenticity of his invention, which he calls his "Remodelscope."

Proceeds of the convention will go to the Y. M. C. A. war work fund.

For a Soldier Boy

Jesse Van Horn was the guest of honor at a dance given at the home of his parents Mr. and Mrs. Van Horn two and a half miles north of Osage on Wednesday evening. Jesse is home on a short furlough from Camp Dodge, Iowa. Some 85 guests were present.

Some of those at the dance were Miss Marie Van Horn, Octavia Nickerson, Mr. Nickerson, Mr. Lucas and Mr. Douss all of Wolford, Mr. and Mrs. Christiansen and family of Merrifield and all of the people of the vicinity. The evening was spent in dancing. A lunch was served at midnight. All had a jolly time and Jesse went back to Camp feeling well repaid for his trip.

This photograph of little Jack De Saulles, for the possession of whom Mrs. John L. De Saulles, the Chilean beauty, killed her husband, was taken when he was on his way to the court house to see his mother. She is on trial for murder. The boy was carried by his aunt, sister of the mother.

THANKSGIVING BALL AT IRONTON

Ironton Commercial Club First to Give a Social Function in the New City Hall

1ST NATIONAL BANK PRIZES

Cashier A. H. Proctor Awards Them in the Potato Growing Contest of School Children

Ironton, Minn., Nov. 27—The Thanksgiving ball of the Ironton Commercial club will be the first social event to be held in the new city hall. W. B. Heed is the general chairman. The dance is to raise funds to make certain the comfort and care of Ironton residents who may be dependents of the boys gone to the front and to provide luxuries for the soldier boys serving under the colors.

Services will be held in the Ironton school house Sunday, Dec. 2, by Rev. Theodore Clemens, of Brainerd. The choir of the Swedish Bethany church is expected to make the trip here by automobiles and assist in the services, which will commence at about 2:30 p. m.

Prizes offered by the First National bank for the best potatoes raised in home gardens were awarded by Cashier A. H. Proctor, Leroy Ellington winning the first prize of \$5 and Emma Cowling the second prize. There were 20 contestants.

Teachers and pupils of the Crosby-Ironton schools bought many Liberty bonds.

Guy Bates has returned to Altkin.

Edward R. Syverson was in Brainerd on business matters.

Postmaster A. C. Gilbertson is sick at his home.

Dan Whitford was at Brainerd on Monday.

A. P. Romer, the village treasurer, was called to Gladstone, Mich., because of the serious illness of his mother.

J. O. Marcetich and D. C. McCaulay motored to Brainerd.

John H. Hill has been active in the movement to change the name of Klondike township to "Ironton" and the petitions circulated have been freely signed. The county commissioners are to decide the matter.

POINCIANA HOTEL

Porch Forming Background "Panorama of Palm Beach" to be Shown

The porch of the Poinciana Hotel which forms the background for the "Panorama of Palm Beach," has been designed and the building superintended by Ed Cain. The effect is truly perfect and with its decorations of wisteria will make a most attractive setting for the play.

The ticket committee, Mrs. R. A. Beise and Mrs. F. A. Farrar, will be at the door tonight at 8:45 and tomorrow night at 8 o'clock to receive reports on tickets. All tickets should be reported not later than Saturday night. All people holding gallery tickets are advised to be in their seats promptly as there are no reserved seats.

AMUSEMENTS

STAGE IS SET

All Ready for First Gala Performance of "The Panorama of Palm Beach"

The stage is set and the members of the cast of "A Panorama of Palm Beach" ready for the initial performance of this clever comic opera at the Park theatre this evening.

A capacity house is assured, society folks are on the quiver of expectancy and a representative audience of music lovers and all interested in a home production of high merit is certain to greet the players.

Attention is called to the fact that the curtain will go up at 9:05 P. M. sharp this hour having been arranged to accommodate merchants and business men who will be busy on account of its being pay day at the shops and mills. The curtain will go up for the Saturday night performance at the regular hour.

The dress rehearsal Thursday evening proved very satisfactory and was an assurance that the cast is well rounded out and the different parts in excellent hands. The music is certain to delight the audience and it is a safe forecast that a number of the catchy airs and songs will become popular with the public and be heard in private homes, on the streets and in the theatres in the future, one of the most democratic endorsements of plays and song hits possible.

A number of out of town theatre parties have been planned and local people will entertain guests who are coming for the express purpose of hearing Mrs. Clyde Parker's clever comedy on the evening of its bow for public approval.

Today and Tomorrow at the Best.

Did you ever fib to your wife? Or, if you are a wife yourself, did you ever "tell stories" to your husband? Most married folks must confess that they have told little "white lies" at one time or another of their married lives, believing it was being done for the best.

"The Fibbers," in which Bryant Washburn and Virginia Vall appear as husband and wife, in Mr. Washburn's latest Essanay comedy-drama, shows that even this variety of fibs often cause many domestic heartaches and lead to unfounded suspicions on both sides of the household.

BARROWS ITEMS

Roads in Barrows and Vicinity Have Been Made Smooth as a Floor

Barrows, Minn., Nov. 28—Mr. and Mrs. Staub were given a surprise party Saturday evening, about 35 being present.

Mr. and Mrs. H. A. Peterson were Brainerd visitors.

Mrs. J. Gile and daughter Eleanor visited in Brainerd Saturday.

Mrs. Henry Roepck was shopping in Brainerd.

The Crow Wing town board has placed a new flag pole and flag on the town hall.

Roads in Barrows and vicinity have been wonderfully improved and are as smooth as a floor.

WORK OF WOMEN IN CROW WING COUNTY

(Continued from page 1)

sold. Twenty-one signed the Hoover Pledge in November, making 28 signers in all or 100 per cent of women in township. Do not know how many are practicing card of instructions but some are trying to conserve in every way possible. Rye, corn meal, buckwheat and oatmeal are being used as wheat substitutes. Some have cut meat out to once or twice a week. Sugar is being used sparingly. Are organizing a Red Cross auxiliary. Had Red Cross talks at the Farmers' club meeting in November.

PEQUOT TOWN.

There is a very patriotic lot of women in Pequot. Locality took \$8,500 in bonds. About 50 signed Hoover Pledges in November, 35 previously, perhaps 75 per cent have signed. Only a few seemed to understand what is meant by conservation. Rye, oats, barley and potatoes are used in bread making. Trying to use honey as a sugar substitute but find it too expensive. Syrup and molasses are used. Hotels and restaurants do not observe wheatless and meatless days as yet. Perhaps 10 per cent of the women are interested in the Red Cross. Had patriotic meeting for Y. M. C. A. fund. Are having evening lectures on conservation by domestic science teacher but attendance is small.

PELICAN TOWNSHIP.

There were no women who purchased Liberty Bonds. With exception of five or six all have signed Hoover Pledge Cards. Most of the women are doing the best they can to live up to government instructions and request. Some of the substitutes food used are rye, graham, corn meal, potatoes, fish, beans, cheese and poultry. Only one woman in locality who is working for Red Cross but many have contributed liberally to the Red Cross sales held in Pequot. Some attended patriotic meetings in interest of Y. M. C. A. in Pequot Nov. 11.

DEERWOOD TOWNSHIP

School children in district 195 purchased \$50.00 bond. Chairman gave several talks on purchase of Liberty Bond at community gatherings in Deerwood and Deerwood township. Hoover Pledges signed in November, 35, previously 28 were signed practically 100 per cent have signed. Everybody is trying to save wheat, meat, fats and sugar; rye, corn meal and potatoes are substitutes for wheat. Many use these substitutes seven days in the week. About 25 per cent of the women are knitting for Deerwood branch. Have had patriotic and conservation talks at two of the school houses.

In summarizing the reports of the township chairmen, a majority have requested that patriotic speakers be sent to their communities that the people may have a clearer understanding of the situation and of the government's requirements. There are those who do not read the papers and who do not try to understand, some say the Liberty Loan, Hoover Pledges and Y. M. C. A. are just a graft and some are getting rich because of these things and I personally feel that it is very imperative that these wrong impressions be corrected at once. It is also very essential that every one assist and support the teachers of our schools in doing their share of this work.

The women of Crow Wing county bought \$34,960 in second Liberty Bonds and women's organizations took \$3,550. This sum of \$38,450 did not represent the actual amount contributed by women for in many cases bonds were taken out in husband's name which were made possible by the wife saving and in other cases through her influence that bonds were bought for the children.

During the month a series of home demonstrations have been given at the Brainerd high school and at the Crosby-Ironton school. These lectures and demonstrations were given by the War Emergency Demonstration Agent assisted by the local domestic science teachers and a conservation committee of women representing the local Public Safety Committee.

Many do not seem to understand the value and importance of Miss Poulter's work but as the necessity for conserving food supplies becomes more widely understood, I believe the majority of the women will feel that it is necessary to know food values and understand balancing of meals and the proper feeding of children and adults.

In addition to the above I feel that I should speak of the assistance that the newspapers are giving us. Nearly every editor in the county has been asked to give time and space for articles that have been prepared and presented by some member of our publicity committee. In this way we have been able to enthuse and interest many whom we should have

WHAT TO USE TO PREVENT APPENDICITIS

Brainerd people should know simple buckthorn bark, glycerine, etc., as mixed in Adler-Ika, flushes the ENTIRE bowel tract so completely that appendicitis is prevented. ONE SPOONFUL Adler-Ika relieves ANY CASE sour stomach, gas or constipation because it removes ALL foul matter which clogged and poisoned your system. THE INSTANT action surprises both doctors and patients, Johnson's Pharmacy.

DRINK HOT WATER BEFORE BREAKFAST

Says you really feel clean, sweet and fresh inside, and are seldom ill.

If you are accustomed to wake up with a coated tongue, foul breath or a dull, dizzy headache; or, if your meals sour and turn into gas and acids, you have a real surprise awaiting you.

To-morrow morning, immediately upon arising, drink a glass of hot water with a teaspoonful of limestone phosphate in it. This is intended to first neutralize and then wash out of your stomach, liver, kidneys and thirty feet of intestines all the indigestible waste, poisons, sour bile and toxins, thus cleansing, sweetening and purifying the entire alimentary canal. Those subject to sick headaches, backache, bilious attacks, constipation or any form of stomach trouble, are urged to get a quarter pound of limestone phosphate from the drug store and begin enjoying this morning inside-bath. It is said that men and women who try this become enthusiastic and keep it up daily. It is a splendid health measure for it is more important to keep clean and pure on the inside than on the outside, because the skin pores do not absorb impurities into the blood, causing disease, while the bowel pores do.

The principle of bathing inside is not new, as millions of people practice it. Just as hot water and soap cleanse, purify and freshen the skin, so hot water and a teaspoonful of limestone phosphate act on the stomach, liver, kidneys and bowels. Limestone phosphate is an inexpensive white powder, and almost tasteless.

It Works! Try It

Tells how to loosen a sore, tender corn so it lifts out without pain.

Good news spreads rapidly and drug stores here are kept busy dispensing freezone, the ether discovery of a Cincinnati man, which is said to loosen any corn so it lifts out with the fingers. Ask at any pharmacy for a quarter ounce of freezone, which will cost very little, but is said to be sufficient to rid one's feet of every hard or soft corn or callus.

You apply just a few drops on the tender, aching corn and instantly the soreness is relieved, and soon the corn is so sarveteled that it lifts out without pain. It is a sticky substance which dries when applied and never inflames or even irritates the adjoining tissue. This discovery will prevent thousands of deaths annually from lockjaw and infection heretofore resulting from the suicidal habit of cutting corns.

SHELL KILLS TWO SAMMIES

German Shot Finds Mark in United States Battery.

Washington, Nov. 28.—General Pershing has reported the loss in action of two members of the field artillery and that five others had been severely wounded.

No details accompanied the report, but it was believed at the War department that a German shell had found an American battery behind the lines and killed or wounded a gun crew. The accuracy of the German fire possibly was due, army officers declared, to the success of a German aviator in flying over the Franco-American forces and "spotting" the battery despite its camouflage.

FRENCH POUR THRU PASSES

Follow Routes Taken By Ancient Invaders of Italy.

With the French Armies in Italy, Nov. 28.—French troops are pouring through the Alpine passes. Relief is in sight for Italy. Men and guns to roll back the would-be despoilers of Venice are passing in seemingly never-ending streams through the century-channelled valleys and ravines.

They came through the same great gaps in the Alps where every great army has entered Italy from Hannibal's legions to Napoleon's invincibles. This time they came as friends of Italy, armed with the most modern war equipment, to help Italy throw back the legions of the modern guns.

GERMANS READY FOR PEACE PACT

Teutons Accept Russian Proposals and Are Waiting to Begin Negotiations.

SWEDEN AS MEDIATOR

At Request of Trotsky That Country Proffers Services in Truce—Hertling Tells Reichstag Teutons Will Win War.

Berlin, Nov. 30.—Germany is ready to enter into peace negotiations as soon as the Russian government sends representatives having full powers to Berlin, Count George V. von Hertling, the imperial German chancellor, has told the reichstag.

Count von Hertling referred to the fact that the Russian government had sent from Tsarskoe Selo a wire signed by Trotsky and Lenin and addressed to the governments and the peoples of the belligerent countries, proposing that negotiations for a truce and a general peace be opened at an early date.

Doubtful of Slav Rebels.
"I do not hesitate to declare that in the proposals of the Russian government, so far as it is at present known, are debatable principles on which the opening of negotiations may be based and that I am ready to enter into such as soon as the Russian government sends representatives having full powers for this purpose," he said. "I hope and wish that these efforts will soon take definite shape and bring us peace."

Respecting Poland, Lithuania and Courland, Count von Hertling said:

"We respect the right of self-determination of their people. We expect they will give themselves a constitutional form of government corresponding to their conditions."

Discusses Current Problems.
The chancellor delivered a long speech in which he dwelt upon all the current problems of the internal and external situations. After some personal observations on the war the chancellor referred to the home politics of the empire, alluding to the introduction of the Prussian franchise proposal and the government's new measures, which extend social and political legislation in Germany and in regard to the maintenance of a censorship, professed himself, in contradiction to the stand of the Entente Powers, in favor of a liberal conception of the right of free opinion.

"I have taken over from my highly honored predecessors in office a precious heritage, namely, to cherish our friendship with Austria-Hungary, Turkey and Bulgaria.
Praises Teutonic Allies.
"Our alliance with these three states were concluded on different dates, but their aim is common—the realization of national ideals, the safe guarding of our territorial possessions and the warding off of enemy attacks.
"The pre-eminent nature of this aim has steered our resolution in the long and bloody struggle and will sustain us until the end is in sight.
Offers to Act as Mediator.
London, Nov. 30.—A Copenhagen dispatch to the Exchange Telegraph company says that the Swedish legation at Petrograd has agreed, at Leon Trotsky's request, to act as mediator between Russia and Germany and has already sent to the Berlin foreign office a notice proffering a truce and peace negotiations.

SOLONS RETURN TO CAPITOL

Bringing Word of One-Mindedness of Country.

Washington, Nov. 30.—Congressmen returning to Washington for the long session are reporting to government heads the country's one-mindedness about the war. Most of them spent the recess talking to their constituents. They bring back word that the country is determined to win.

"The people of my state are sorry we have to be in the war, but they're determined nothing must be left undone to win," said Senator Gronna, North Dakota.

Senator Hitchcock, Nebraska, reported sentiment in his state now reflects an inflexible determination to win.

"I found a feeling of amazement that we should be at war," said Senator Reed, Missouri, "but a determination, since we are in, to come out on top."

German Destroyer Is Sunk.

London, Nov. 30.—A German torpedo boat destroyer belonging to the Zebrugga flotilla, struck a mine off Westkappelle, Holland, and sank, according to an Exchange Telegraph dispatch from Amsterdam. Only two of her crew were saved.

Nearing Holds Sneak Peace Meeting.

Denver, Col., Nov. 30.—Prof. Scott Nearing of Toledo has left Denver following a secret pacifist meeting, attended by about 25 members of the local branch of the People's Council at a private residence here. "The meeting here as an executive session," Nearing said. "In cities where the ordinances prohibit private meetings in a public hall we notify the police before we gather." The local branch of the People's Council has been prevented from holding several scheduled "sic meetings."

LAND-CLEARING BY CONTRACT A NEED IN THE NORTHWEST

(Issued by the State Committee of Food Production and Conservation for the Commission of Public Safety.)

Land-clearing by contract is much needed in the "cut-over" parts of the Northwest. Many new settlers from the prairie country prefer to have their land cleared, but it has been almost impossible to do so except by day labor, and such labor has generally been inexperienced and unsatisfactory.

In the early years nearly every man with a team was looking for a contract to log-off a piece of land. Land-clearing may be engaged in with less capital and much less risk than logging. The north country is calling for land-clearing contractors.

W. W. Rabey and L. M. Lathrop of Hill City, Minn., have done much in the last season to encourage land clearing by contract. They have demonstrated that this work may be

Having been pulled in this fashion the stumps are more easily piled. Mr. Rabey has also built a gasoline power stump-puller for stumps that are too large to be piled by hand.

Having tested the method named, Mr. Lathrop took contracts for clearing land. The land cleared was a cut-over white pine area, with about 190 stumps to the acre, averaging 20 inches in diameter. There was also some second-growth poplar. Three men and a team operated the stump-puller. Wages were figured at \$3 a day for man-labor, and \$6 for man and team. The average labor cost for men and teams for pulling, piling, and burning was \$20.39 an acre. Dynamite was used to the extent of \$27.8 an acre. The price of the stump-puller was \$180. The piler could probably be built for \$300 or less. The cost of the stump-puller

undertaken with profit at a price that the average farmer can well afford to pay.

Mr. Rabey has studied the problem of land-clearing from the standpoint of an engineer, seeking to find the cheapest and most practical method. This year he has used the stump-puller with marked success.

The biggest problem has been the handling of stumps after they have been pulled. A common practice has been to crack large stumps with dynamite either before or after pulling. This may still be necessary with certain kinds of stumps, but the men mentioned have found that big white pine stumps can be torn apart with a root plow and pulled out in pieces.

Two of the pieces going out with the stump plow. Note the attachment of the plow to the cable.

'AMERICA FIRST' SPIRIT

Unifies Nation on Occasion of Thanksgiving Holiday.

Country Firm in Purpose to Prosecute War to Just and Peaceful End.

Washington, Nov. 30.—Passing from its war work the nation gave thanks in solemn fashion for the material benefits of the past year, but more particularly for a new national spirit. From every pulpit there arose a note of gratitude that America is awakened to its task, united in its efforts and firm in the purpose of prosecuting the war to a just and peaceful end.

It was not all solemnity, however. Cities dispensed an open handed hospitality, housing thousands of soldiers and sailors at bounteous Thanksgiving dinners and then giving them dances and theatre entertainments.

Wilson's Thanksgiving Quiet.

President Wilson spent Thanksgiving quietly. With Mrs. Wilson, he attended the services of the Metropolitan Methodist church. In the evening he attended the naval relief ball.

Seven Methodist churches and the junior order of the United American Mechanics united in the services which the President attended. The Rt. Rev. Bishop William M. McDowell delivered the sermon.

The Pan-American Thanksgiving mass at St. Patrick's was held in the presence of the justices of the United States supreme court, members of the diplomatic corps, Cardinal Gibbons, high government officials and a large congregation.

SAMMIES HAVE BIG FEAST

Soldiers in France Observe Annual Turkey Day.

Paris, Nov. 30.—American soldiers stationed in Paris and the suburbs, as well as those in the various training camps and bases, sat down to an old-fashioned Thanksgiving dinner. Special detailed officers for the last two weeks have been buying all available turkeys in the nearby countryside which average 12 pounds in weight.

The dinner menu for the men stationed in Paris included soup, turkey, potatoes, turnips, peas, white bread, butter, apple and peach pie, apples, raisins, nuts, figs, dates and coffee. Individual turkey portions range from a pound and a quarter to a pound and a half.

A small group of American soldiers quartered at a French barracks and who have been receiving French rations also had a special dinner. While the men there did not enjoy a holiday, "reveille was omitted and other rules relaxed for the day."

EIGHTEEN MEN ENTOMBED

Imprisoned in Illinois Mine by an Explosion.

Christopher, Ill., Dec. 1.—Eighteen miners are imprisoned in a mine of the Old Ben Coal corporation here, following an explosion. The men were caught on the 600 foot level.

Rescuers are at work trying to reach the imprisoned men. So far they have made their way 500 feet down the shaft.

A. T. Morey, an official of the coal company, said that he had little hope of bringing out the imprisoned men alive.

Perservere.

The 100 per cent efficiency that is being striven for can't be reached in a day's efforts. It may take a hundred, and even then don't be discouraged if it seems that you will need to try another hundred.

Priests May Remain in Mexico.
Mexico City, Nov. 30.—By order of the Department of the Interior three foreign priests, arrested and ordered deported, have been released and permitted to remain in Mexico as a result of efforts on the part of French, Italian and Spanish representatives here. As an act of courtesy to these countries and to satisfy their demands, at least in part, the government will permit one Spanish one Italian and one French priest to remain. But foreign priests must not hold religious services in churches.

STATE-WIDE REPRESENTATION

Twin Cities, Railways, Members of State Legislature, State Government Heads at the

THREE-IN-ONE CONVENTION

Social Session at Chamber of Commerce Thursday Evening will be a Gala Affair

Judging from the number of inquiries and the interest indicated the attendance at the winter meet of the Northern Minnesota Development Association in this city on Thursday and Friday December 6 and 7 promises to eclipse any previous gatherings of the association.

Telephone messages from the Twin Cities indicate that delegations from the civic bodies of St. Paul and Minneapolis are coming, the Northern Pacific will be well represented, word having been received that a number of prominent officials will be here for the two days of the convention. Members of the state legislature, and representatives of different departments of the state government have indicated their intentions of taking in the big show. Farmers all over the northern part of the state are indicating keen interest in the program as announced recently, potato exhibits are already coming in and County Agent E. A. Colquhoun is busy with the arrangements for the big display at Gardner hall.

The social session at the Chamber of Commerce on Thursday evening promises to be an interesting affair. President Henry I. Cohen of the Chamber will open the social session with an address of welcome and will turn the gathering over to R. R. Wise, vice president of the N. M. D. A. who will act as toastmaster. Music, repartee and a general good time is assured at this, the social session of the gathering.

The ladies are busy at work with plans for the potato luncheon at Gardner hall on Friday, the second day of the convention. A food demonstration, in which the possibilities the humble potato offers in the plan of conservation, will be made by Miss Florence Poulter, representative of the federal government in food demonstration. Miss Poulter is giving her time and attention to this feature of the program.

An exhibit, to be conducted under the direction of Mrs. L. P. Hall, county chairman of the Woman's Auxiliary of the Public Safety Commission, will be placed in the Chamber of Commerce rooms and will be one of the most interesting features.

Reception committees have been named by local ladies to make the stay of visiting ladies pleasant, theatre parties and an informal reception being planned for their entertainment.

The convention committee of the Chamber of Commerce, head of the house and social committee, special committee of the N. M. D. A. on convention and others interested in the details for the meeting will meet Monday to go over plans and details.

In view of the prospects for a large gathering, and number of out of town visitors expected, those having rooms to accommodate persons not able to secure rooms at the local hotels have been implored to assist the committee in this matter.

The hotels are preparing to accommodate capacity crowds and the visitors will be afforded every convenience and courtesy in Brainerd.

Letter From Governor.

The following letter from Governor J. A. A. Burnquist was received by Secretary Lincoln today and indicates the interest the chief executive is taking in the coming convention:

November 28, 1917.

Mr. Fred T. Lincoln, Secretary, Northern Minnesota Development Ass'n., Brainerd, Minnesota.

Dear Mr. Lincoln:

I am very much pleased to find that the Northern Minnesota Development Association is to hold another convention on December sixth and seventh for this organization has done much valuable work since its formation. The conference will undoubtedly result in many valuable suggestions. Taking into consideration the timely subjects upon which addresses are to be made, I feel that much good will be accomplished by the holding of your convention.

Congratulations upon the excellent work that the Development Association has done in the past and wishing you the greatest of success at this convention, I am,

Very truly yours,

J. A. A. BURNQUIST.

"AMERICA IS NOW FINDING ITS SOUL"

Subject of Sermon Given by Rev. H. G. Stacey on Thanksgiving Day in Episcopal Church

MUCH TO FEEL THANKFUL FOR

This Year America's Gratitude Built on Spiritual Basis, on the Joy of Sacrifice

This sermon was preached by Rev. H. G. Stacey at St. Paul's Episcopal church Thanksgiving morning, the subject being "America Finding its Soul."

Thanksgiving is a compound word. Thanks-Giving. We mistake the proper emphasis when we think most of all of the first half, "Thanks". Thanks for the fine day, good dinner, lots of fun. This seems to be the end of the duty to many people. Many of us begin and end our Thanksgiving with the day. Some don't feel particularly thankful because there is so much they want and haven't got.

Lesson of Midas. He desired that everything he touched be turned to gold, with the result, he starved to death in the midst of wealth.

Second Half of Word. Is the most important. "Giving". We are grateful for what we get but we ought to be very thankful if we are able to give. Giving is hard at times and we grumble at the many calls, for example Red Cross and other benevolent funds.

Some have said Thanksgiving is thanksgiving. Some wonder why we should give thanks? A world bathed in blood and tears, laughter hushed, anxiety broadcast, life itself seems unsafe.

We find our answer in the fact that at least we have the same material blessings to be thankful for. E. g., bountiful crops, increased wealth, no unemployment, and practically little want. Furthermore looking at it from a national standpoint America is the greatest phenomenon in history, her prosperity is stranger than fiction, the story of her growth is more wonderful than the Arabian Nights. In wealth, efficiency, power and influence America stands first amongst the nations. As a nation she has never occupied a prouder position.

As a nation we have stepped out of our national habit of insularity and merged our interests with those of the peoples of the old world. We sit down as a member of the family of nations and share with them, not only the things of our prosperity, but, more important still, the things of their adversity. There is a remarkable unifying influence today, not only in the new sense of national solidarity but also in the fact that we are clasping hands with our brethren across the seas enlisted in the greatest crusade for human rights and for the brotherhood of nations that the world has ever known.

A year ago there was a skeleton in the closet of our prosperity; we could not help seeing it when the door was ajar. Our total profits made out of war were conservatively reckoned to be about two and a half billion dollars; our total war charity up to that time amounted to thirty million dollars. America had given twelve million for the relief of Belgium. England and France had sent to this country two hundred and thirty eight million dollars to buy food and clothes for Belgium; out of this charity fund, contributed by these war-stricken nations, America had made a profit of over forty-seven million dollars. Out of Belgium's necessities, therefore, we had made, in profit, four times what we had contributed to her need. Let us go further. For the relief of Belgium we have contributed at the rate of ten cents per capita New Zealand had given at the rate of one dollar and twenty-five cents per capita, and Australia given even more. These countries were both in the grip of the war. Paderewski labored unremittently to awaken sympathy in America for unhappy Poland; yet the series of recitals he gave on behalf of his stricken country brought only sixty thousand dollars. Whereas Melba made seventy thousand dollars for war charity at one concert in Melbourne.

We had given two hundred and seven thousand dollars to Serbia. France gave twice as much. England had given eight million. Yet our total war profits were reckoned to be two and a half billions. So we rejoice today in the peacefulness of being at war.

Last year we were thankful for material prosperity and peace at any price. This year our gratitude has a spiritual basis. It is built on the joy of sacrifice therefore we offer our thanks chiefly for the rebirth of a great people. America is finding her soul. Money getting, money spending, material prosperity had become the chief lust of the nation. America was gaining the world, but fast losing her soul. The charge that we were cold and heedless to the travail of the world in the grip of war seemed only too true. The nation was steeped in an overmastering passion for gain.

Belgium was crucified, we were shocked for a moment but soon forgot. France, we were told, was being bled white and yet seemingly we were not moved. Armenia slowly being annihilated did not make us pause in our merriment, we still ate, drank and made merry. Even the murdering of our citizens on high seas only partly aroused the nation.

Today America has a new vision, her spiritual eyes are opened. The fearful piercing cry of humanity in agony has reached her ears. We realize today that the boon of liberty and justice was slipping out of our grasp and the curse of an iron rule exercised by an alien power was being forced on the world. Democracy was in danger.

America has found an objective great enough to rally its noblest im-

ICIEST DAY IN TOWNS HISTORY

Sleet and Rain Made Pavements as Slippery as Glass Thanksgiving Day

SOME CARS WERE DAMAGED

Horses Slipped and Fell at Intervals. Pedestrians Took to Grass or Middle of Road

Thanksgiving day was a great day for skaters in the city of Brainerd. One needed no skates to slide, paving and pavements were iced up the slipperiest in the history of Brainerd, rain and sleet combining to do the work.

Chains were of little benefit to cars early in the day and automobiles skidded on every corner. Several cars had wheels damaged by collisions with curbs. A Little Falls car broke a rear wheel when it collided with a bridge south of Brainerd.

Pedestrians took to the grass where possible. The middle of the road was just as slippery as the sides. Out on country roads farmers' teams struggled and many went down on hill climbs.

Slightly warmer weather in the afternoon served to break up the skating carnival, much to the relief of a grateful town and countryside.

pulses. The soul of America, freed from slavery of materialism, is responding to the new vision of a brotherhood nations. She has girded on her armor on the side of humanity, righteousness and liberty. Millions of soldiers are being made ready to go into the furnace of battle where the new freedom of the world is to be forged. A great civilian army is standing behind the men behind the guns. The mobilization of every ounce of energy and spirit is taking place. The nation's heart is open to the calls of not only our own needs but the needs of Armenia and Syria. The finest chapters in the history of philanthropy have been written in the story of contributions to the Red Cross, Y. M. C. A. and other patriotic funds. We would remember the way the Lord our God has led us. We were forgetting the ideal on which the nation was founded. Today we have a new vision, our ideals are enlarged.

We are thankful indeed to know our nation has found its soul, let us show our thanksgiving by self giving. A word of warning is necessary. America is reaching that frame of mind that will tolerate no slacker anywhere under the folds of its flag. Every man must contribute his bit or else be called to strict accountability for his failure to do so. Every woman must give of her services to help along the cause. Every child must be taught its part to play in strengthening the arms and souls of those who fight for its freedom. America is consecrated to the work of saving the world for liberty and justice.

NO COLD FEET HERE

Dick Herbert Installs a Steam Heated Foot Rail at Restaurant Counter

Dick Herbert, veteran restaurant man of Brainerd, has added a novel improvement to his coffee house on Laurel street. It's hot water heating and instead of having the usual radiators sizzling about in the corners, Herbert has had piping run from his hot water tank to the floor and then used as a foot rail to the counter. When a guest takes his lunch or meal now he can rest his foot on a warm rail.

Dick, who in former days was a railway conductor who lost a leg and now wears an artificial limb, has his little shop so arranged that he dominates the center and from that point can wait on all customers, attend to his cooking and need take but few steps. It is a model as a kitchen and many food conservation people and domestic science experts have taken a look at his coffee house. He has fed from 525 to 667 people a day or a total of 2369 since he opened the stand on Laurel street. In one day he sold seven gallons of coffee.

A. W. NORTHRUP KILLED IN ACTION

Former Brainerd Man Enlisted in American Legion in Winnipeg. At French Front 2 Years

KILLED IN PAST WEEK FIGHTING

Had Been Connected With Accounting Dept. of M. & I. Four Years, Went to Canada in 1913

W. H. Gemmell received today from R. K. Gemmell of Winnipeg, Man., a copy of the Winnipeg Evening Tribune of Nov. 22, which prints a list of 197 Manitoba men killed and wounded in France in the heavy fighting of the past week. Among the names of the 24 who were killed in action appears that of Arthur Ward Northrup who enlisted in the American Legion in Winnipeg and who has been at the front in France for some two years.

Mr. Northrup is well and favorably known in Brainerd, having been connected with the accounting department of the Minnesota & International railway for four years, leaving here for Winnipeg in 1913. His many friends will regret to learn of his death.

BRAINERD'S ODDEST STORIES OF TODAY

This "Camouflage" business is spreading all around. There are camouflage freighter boats all painted up so the U-boats can't see them. Camouflage scenery hides the guns. The daughter of the former emperor of Russia has escaped from Russia through a fictitious or camouflage marriage to a son of a former chamberlain of the emperor and is now on her way to the U. S. A. The other day Lloyd George "camouflaged" Germany with his speech and Blingen on the Rhine come near being blinged by Gen. Byng. The odd column man went to a soldiers' farewell party the other day all camouflaged behind a hedge of whiskers. A man coming home at 2 o'clock in the morning reported he had camouflaged his wife by wearing camouflaged pajamas and his wife couldn't see him when he surreptitiously crawled to bed. About the only men you can't camouflage are the butcher and the grocery man, the gas man and the coal man.

An Indian agent and a deputy, so the story goes, visited the vicinity of Trommald and arrested a tar paper shack man where two bottles of whiskey were found. On the way home they stopped at Trommald for lunch and upon returning to their automobile found the liquor had been appropriated by thirsty individuals who had thus lugged away all evidence of a crime.

UNION SERVICE INSPIRING ONE

Specious Auditorium of the First Methodist Church Filled on Thanksgiving Morning

SERMON BY REV. W. J. LOWRIE

Music Under Direction of Dr. E. E. Long Greatly Enjoyed by all Who Were Present

A most inspiring union Thanksgiving service was held at the First Methodist church Thursday morning at 10:30.

The spacious auditorium was filled in spite of the weather conditions. The ministers of the various churches assisted in the service of the day.

The music under the direction of Dr. E. E. Long was greatly enjoyed by those present. A chorus of about fifty voices from the different churches rendered several numbers and a selected choir of sixteen voices sang "Praise the Lord," by Williams. The chorus was assisted by the orchestra of the Methodist church.

As an offertory the church trio, composed of Miss Fern Hitt, violin, Wm. Rodenkirchen, cello and Miss Bessie Paine piano, rendered "Berceuse," by A. Djinaky, in a most pleasing manner. A splendid offering was taken and given to the Associated Charities.

Rev. W. J. Lowrie of the Presbyterian church preached the sermon of the day on the subject, "The Greatest Reason for Thankfulness," his text being Revelation 22:17. Rev. Lowrie gave an inspiring sermon, emphasizing our reasons for being thankful. The service was a most helpful one indeed.

\$22.99, the Thanksgiving collection, was donated to the Associated Charities.

CAME TO BRAINERD JUST 40 YEARS AGO

Just forty years ago this afternoon John Gibb came to Brainerd. It was a tented city at that time, a frontier town, wide awake, rough and ready. Mr. Gibb was moved to tell about his advent in Brainerd when he read Col. C. D. Johnson's touching autobiography published in the Dispatch.

Have it Handy For Croup

Grandmothers and mothers who have raised families of children have learned from experience that it pays to keep a bottle of Foley's Honey and Tar in the house ready for emergency. It gives prompt relief from dreaded croup attacks, checks coughs and colds, and relieves whooping cough. A safe medicine—no opiates. H. P. Dunn, druggist. mwf

THE HIGH TREASON of IMITATION

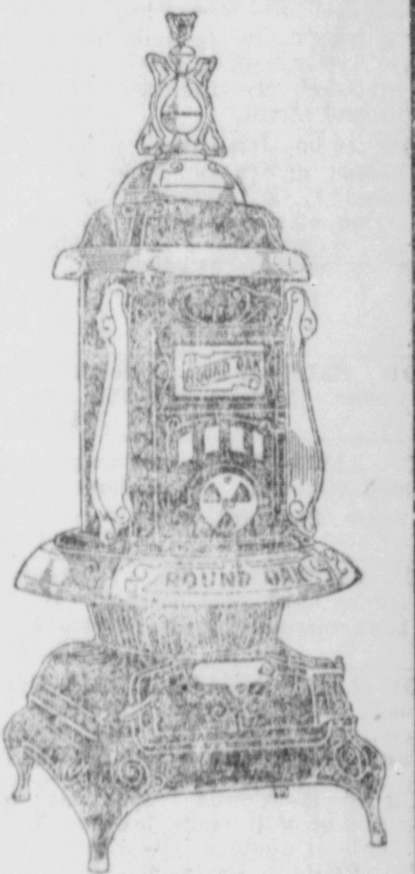

Folks always want the original, everything else being equal. It will interest you to know there are more than 400 imitations of the original Round Oak heating stove on the market today, and that many charge more a pound for these imitations than we charge for the original.

The reason there are more pounds in the original is to render that generation of service which always follows the purchase of a genuine Round Oak.

Consider the Facts

Its patented construction, airtight fitting, and weight of materials will actually save enough fuel over the imitations to pay the interest on your investment. So again you discover that the best is always the cheapest.

May we demonstrate to you the original and genuine Round Oak Heater?

WAR CONFERENCE OPENS IN PARIS

Allied Delegates Ready for Important Problems at Once—Clemenceau Presides

VITAL POINTS WAITING

Russian Problem Foremost Among Questions to Be Taken Up by Allied Conference in Paris.

Paris, Nov. 30.—These Americans were named by the inter-allied conference at its opening session to serve on the various committees:

Blockade—Vance McCormick.
Food and Supplies—Alonso Taylor.
Imports and Transports—Bainbridge Colby, Vance McCormick.
Armament—Thomas Nelson Perkins.
Munitions—General Williams, Colonel Bolling, Commander Corse.
Finance—Oscar T. Crosby, Mr. Cravats.

ADD SIT IN

Paris, Nov. 30.—The inter-allied conference will open their first formal session promptly at 10 o'clock a. m.

A great deal of the preliminary formal work of the organization of the council has already been effected by informal individual meetings, so that it was expected the statesmen could begin almost at once the discussion of vital points which have called them together.

Foremost in the problems which the meeting will be called upon to consider is the Russian situation. Calculation must be made for the release of a considerable number of German and Austrian troops, now on the Russian fronts, now that it appears the Bolsheviks and the Germans will certainly sign an armistice next Sunday.

54 in Conference.

Fifty-four statesmen for the Allies sit in the meeting. The premiers of England, France, Italy, Serbia, Greece, Portugal and Montenegro head their respective delegations. Foreign ministers for England, France, Italy, Belgium, Montenegro and Portugal are present, together with various ambassadors, special envoys, cabinet members and high officials of all the Allied powers.

The meeting is being held in the building of the French minister of foreign affairs.

Clemenceau Presides.

The French premier, M. Clemenceau, presided. His opening speech barely exceeded a hundred words.

"Gentlemen," he said, "in the name of the French republic the honor of welcoming you falls upon me. In this greatest of wars it is the feeling of the supreme solidarity of peoples which unites us at this moment to win on the field of battle the right to a peace which shall be a true peace of humanity."

"It is for this we are here in this admirable reunion of hope and duty well prepared to make every sacrifice demanded by the alliance which no intrigue and no weakening can ever impair. Our task is to translate into acts those lofty feelings whereby we are animated. Our order of the day is work. Let us work."

U.S. TROOPS PLAY GREAT PART

Are Active Participants in Big Drive on West Front.

British Army Headquarters in France, Nov. 30.—American troops have played an important part in General Byng's drive before Cambrai. It is now possible to tell the people of the United States for the first time that American army engineers have had a large hand in the marvelous work which has been accomplished in the way of pushing the vital railways up to the front.

To Stamp Out Camp Diseases.

Washington, Dec. 1.—Recommendations for stamping out epidemics at army training camps are made in a report by Surgeon General Gorgas, which is expected to be made public at once. Prevalence of measles and pneumonia at Camp Wheeler, Macon, Ga., and at other camps has been under investigation by trained medical officers and it is said they have ascertained the cause of the trouble.

Wheat Order Modified.

Chicago, Nov. 30.—In order to expedite the movement of corn, the Federal food administration has modified its order requiring the preferential movement of wheat, so as to include all grains. It is announced here by the Chicago committee of the railroads' war board.

Fight for U. S. or Die For Kaiser.

Chicago, Nov. 30.—If any pro-Germans remain in the United States they can take their choice of "being shot or being right." That as the ultimatum of United States Senator James Hamilton Lewis, delivered at a patriotic mass meeting sponsored by the State Council of Defense, "By God! They shall either fight for this land or die for Germany," he shouted, "They shall not longer ply their treachery here." United States Senator Lawrence V. Sherman and Congressman Henry T. Rainey also spoke.

WOULD LOSE LARGESUM

Russian Cancellation of U. S. Debt Would Be Costly.

Would Mean Sweeping Aside of Bill of Nearly \$160,000,000 Which America Has Advanced.

Washington, Nov. 30.—Cancellation of Russian war debts to the United States would mean sweeping aside a bill of nearly \$160,000,000. This amount already paid out of an authorization of \$225,000,000 has been expended in the United States, chiefly in paying munition debts which otherwise might have gone by the board. American government officials have held that it was wise to give Russia support in recent months because of her sore straits, particularly because some American industries would have suffered severely had their Russian bills not been paid. Congressmen have manifested a disposition recently to inquire into the Russian loans and to oppose further disposition of funds until Russia appears stable.

To Second Proposal.

While arrangements of a Bolshevik armistice with Germany appeared to be only a matter of a brief time, some authorities here felt that a strong figure—maybe Kaledines—would arise to stir the nation as a whole to break this agreement. While the apparent dwindling of the moderate Socialist movement proceeds and while the Bolshevik gain in power, still it felt there was another proposal in Russia than the peace at any price attitude of the Bolsheviks.

The entente proposal to warn Russia of its danger would probably be seconded by the United States inasmuch as an American statement might gain influence from America's position as a free democracy.

Another Revolt Reported.

Out of the maze of Russian complications there has emerged word of renewed trouble at Petrograd with a hint of another revolution to arrest, momentarily at least, the interest of the Washington government. What proportions the movement assumed was a matter of conjecture. The early reports telling of firing and wounding of several persons and epidemic of political turmoil, no official message has come on the outbreak and Ambassador David R. Francis is presumed to advise Washington promptly of any disturbance that reaches such dimensions as to be at all significant.

GERMANY HAS FOOD FOR 1918

Official Says Adequate Supplies For Year Are on Hand.

Amsterdam, Nov. 30.—Speaking in the Prussian lower house on food conditions, Herr von Wadow, president of the German food regulation board, said:

"Considerable supplies of grain for making bread have been provided by early threshing. The imperial grain bureau has already received 1,000,559 tons, as compared with 850,000 tons last year. The potato crop may be regarded as satisfactory—almost as a good one—and we count upon having 34,500,000 tons. Distribution will be carried out much more efficiently than in recent years. The same quantity of sugar as formerly can be delivered. We shall still have to bear many restrictions, but we have adequate food supplies for the new year."

Herr von Wadow said that bread and potatoes would form the basis of the food supply.

SEEKING OLD RENDEZVOUS

Villa and Men Beating Back Toward Laguna.

Juarez, Mexico, Nov. 30.—Villa and a column of approximately 800 men have crossed the Mexican Central near Laguna station, 170 miles south of here, headed toward the Santa Clara canyon west of Laguna, which has been a favorite rendezvous of Villa followers in the past.

This news was brought here by a messenger who came from Villa Ahumada by automobile, all train service except for troop trains having been suspended. He said fighting had been general south of Villa Ahumada, but did not know the number of dead and wounded.

Joy for Fighting Men.

Camp Dodge, Iowa, Nov. 30.—Turkey, goose, chicken and all the regular Thanksgiving trimmings made up the menus around the various barracks in Camp Dodge. There was entertainment with football games, the athletics and athletic sports. The day was similarly observed in all camps in the country.

Red Cross Wants Women Chauffeurs.

New York, Nov. 30.—A call for 16 women chauffeurs to drive motor trucks and ambulances in this city has been sent out by the National League for Women's Service. The trucks are used to transport Red Cross supplies from workrooms to warehouses and ships.

Invents Tractor; Gains Wealth.

St. Louis, S. D., Nov. 30.—A former South Dakota boy, Arthur Cole has gained fame and fortune from a tractor of his invention. He is now a resident of Toronto, Can., and is making a visit to his father and brother, residents of Fort Pierre, where he was reared. He sold the patent rights of the tractor to a corporation at Toronto, retaining a royalty upon the sales, and is employed by the company at a large salary. The British government has ordered 3,000 and Australia has placed a big order.

LANDSOWNE IN PLEA FOR PEACE

British Leader, Looking to Early Peace, Advocates Revision of Allies' Aims.

WORD AMAZES BRITAIN

Bitter Controversy Expected Over Proposed Leniency For Germany—Government Organs Denounce Statement.

London, Nov. 30.—From the most unexpected quarter comes the strongest impetus to a renewal of the heated discussions of the rival schools on the war policies of the Allies.

It is the publication of a long letter from the Marquis of Lansdowne, strongly pleading for a revision of the Allies' war aims and an attempt to secure peace before "the prolongation of the war leads to the ruin of the civilized world."

Favors League of Nations.

Lansdowne's letter gives formal adhesion to President Wilson's policy of a league of nations, and he asks:

"What will be the value of the blessings of peace to nations so exhausted that they can scarcely stretch forth a hand to grasp them?"

Lord Lansdowne contends that an immense stimulus would probably be given to the peace party in Germany if it were understood:

"First, that the annihilation of Germany as a great power was not desired; second, that we do not seek to impose upon the German people a form of government against their choice; third, that, except as a legitimate war measure, we do not desire to deny to Germany her place among the great commercial countries; fourth, that we are prepared, after the war, in concert with the other powers, to examine the international problems connected with the freedom of the seas; fifth, that we are prepared to enter into an international pact, under which ample opportunities would be afforded for the settlement of international disputes by peaceful means."

Bitter Controversy Ahead.

Lansdowne's long and intimate connection with foreign affairs and diplomacy lends unusual authority to such a pronouncement at the moment of the meeting of the inter-allied conference at Paris and because of Clemenceau's recent declaration against a league of nations including Germany, and already there are indications of embittered controversy over it.

It is authoritatively announced that the government had no previous knowledge of the letter, and the strongest supporters of the government in the evening press suggest that the letter is very unwelcome to the government.

Asquith Papers' Praise Letter.

On the other hand, the Asquith papers hail the letter as one of the most remarkable documents that the war has produced, the "Star" greeting the letter as the most formidable attack yet made on the Lloyd Georgeian "knockout blow policy."

FIRST U. S. AIRMEN ARRIVE

Reach French Front in Readiness for Action.

With the American Army in France, Nov. 30.—A substantial vanguard of the great army of American aviators who eventually will operate in France has arrived near the front.

For weeks some of them had been training actively for battle front service, co-operating with the maneuvers of the American troops rehearsing and practicing attacks. Army flying fields have been established in certain sections and for days American soldiers in many parts of France have been watching American aviators circling above their heads.

Mikado Thanks Wilson.

Tokio, Nov. 30.—The emperor has received the report of Viscount Ishii, head of the Japanese mission to the United States, which recently returned to Tokyo. The emperor sent a message to President Wilson, thanking the President for the splendid reception accorded the mission, assuring the future happiness of the two nations, which would be forever greatly remembered in Japan.

Dallas Dismisses Three Germans.

Dallas, Texas, Nov. 30.—Three German subjects, now in the service of the city government, will be dismissed at once. Mayor Joe E. Lawther has announced.

Use Many Shells on Americans.

With the American Army in France, Nov. 30.—American ordnance experts have figured that Germans in raids on American trenches thus far have expended more than \$100,000 worth of ammunition alone.

To Bury U. S. Slain in France.

Washington, Nov. 30.—The bodies of Americans who die or are killed in France will remain there until the close of the war. This decision by war department officials is in line with a recommendation of General John J. Pershing, commander of the American expeditionary forces. Persons who lose relatives in the American forces and request that their bodies be sent home are being advised by Secretary of War N. D. Baker of General Pershing's recommendation, which will be rigidly followed.

OBJECTIVE IS VICTORY

Sole Aim of United States is to Win War.

Member of U. S. Mission Tells Proposal at Thanksgiving Day Banquet in Paris.

Paris, Nov. 30.—At the same board with William Graves Sharp, the American ambassador, General Pershing and Admiral Sims, at a luncheon of the American club, many distinguished Frenchmen united in observing Thanksgiving day. Marshal Joffre, former Premier Viviani and Captain Andre Tardieu, the French high commissioner to the United States, were among those present.

Among Americans present were Bainbridge Colby, member of the Shipping board of the United States; Vance McCormick, chairman of the War Trade board; Oscar T. Crosby, assistant secretary of the treasury, and Paul D. Cravath, legal adviser to Mr. Crosby. Lawrence V. Benet, president of the American club of Paris, presided.

Victory Only Object.

Mr. Colby, who represented Colonel House, said that the American mission proposed to the British mission that there should be no more trade, no more commerce, and that all ship-

ping facilities should be devoted to a single objective, a single aim—that is, victory. He declared no Allied ship or cargo will be dispatched that has not for its express object the maintenance of the fighting forces and the victory of the common cause.

Mr. Benet's every reference to President Wilson, Marshal Joffre, Premier Clemenceau, M. Viviani, General Pershing and Admiral Sims was cheered by the 250 Americans present.

ARBITRATION ASKED BY U. S.

Wants Twin City Street Car Trouble Settled That Way.

Minneapolis, Nov. 30.—The United States Department of Labor has directed Robert S. Coleman of St. Paul, commissioner of conciliation, to ask the management of the street railway company and the union trainmen to submit their differences to a board of arbitrators.

The instructions from Washington followed requests sent to the Secretary of labor by E. G. Hall, president of the Minnesota Federation of Labor, and Congressman C. C. Van Dyke of St. Paul.

It is necessary for both the company and the union trainmen to agree to arbitrate their differences. The men have agreed.

Company officials declined to make any definite statement on the arbitration proposal until further word was received from Washington.

Airmen Drop Many Bombs.

London, Nov. 30.—Over 130 bombs were dropped on the Courtrai, Roulers, Menin and Thourout railway stations and other targets in the Ypres battle area, according to an official British statement just issued.

Died of Premature Old Age!

How many times we hear of comparatively young persons passing away when they should have lived to be 70 or 80 years of age. This fatal work is usually attributed to the kidneys, as, when the kidneys degenerate, it causes auto-intoxication. The more injurious the poisons passing thru the kidneys the quicker will those noble organs be degenerated, and the sooner they decay.

It is thus the wisest policy, to prevent premature old age and promote long life, to lighten the work of the kidneys. This can be done by drinking plenty of pure water all day long, and occasionally taking a little Anurie before meals. This will find Anurie more potent than lithia for it dissolves uric acid as water does sugar.

HOME FOLKS.

WHAT NEIGHBORS SAY.

Breckenridge, Minn.—"For a number of years I suffered with woman's weakness in its worst form. I was in distress continually—had backache, pains in my side, also bearing-down pains. I could not be at ease in any position, day or night. Could not eat nor sleep. I was so thin I was next to a walking shadow and very weak. Nothing I could find in the way of medicine or that the doctors would give me seemed to help me in the least until I began to use Dr. Pierce's Favorite Prescription and it completely cured me of my ailment. Since then I have taken it at times when I felt bad and it never failed to give relief. I gladly recommend it." —Mrs. F. D. McNaughton, 6th Street N.
